

 NEW

M130-13G-EU - PETROL POWER

NEW M130 FLAT SAW - COMPACT POWER. MAXIMUM PERFORMANCE.

Newest Flat Saw in the Merit Lineup

Launching October 2025 in the European Union and United Kingdom, the new M130 Flat Saw is a concrete cutting flat saw that is the ideal balance of power, performance, compact size, and ease of use. The Merit M130 is best for the contractor that needs a compact powerful flat saw for small to medium size jobs in concrete or asphalt. Other key user applications include work on sidewalks, driveways, basement cutting, and openings for plumbing.

Market Segments

The M130 is engineered with both the dealer and rental channels in mind. This concrete saw delivers exceptional performance, powered by a Honda GX390 petrol engine that ensures reliable and consistent power. Its user-friendly design and lightweight construction make it easy to transport between jobsites. Ideal for smaller to medium-sized projects, the M130 is a versatile tool suitable for a wide range of applications.

M130 Walk Around Features

User-Friendly Designed
Focused on reducing operator fatigue, enhancing comfort and efficiency during prolonged use

Large Integrated Water Tank
30 liter tank reduces downtime and increases productivity

External Water Connection
Ability to connect directly to a hose for continuous water supply for cutting

Small Size
Compact and lightweight for ease of transport between job sites and efficient cutting in tight spaces

Handle with Lock Capability
Easy-to-move handle rotation to raise and lower blade during the cut featuring handle lock-in-place option to keep blade at certain depth

Honda GX390 Engine
Crafted with high-quality components like a cast iron cylinder sleeve and ball bearing supported crankshaft ensure long-term performance

Key Features of the M130 Flat Saw

300mm - 500mm
200mm Max Cut

Efficient Cutting

8.7kW Honda Motor delivers the power, performance, and reliability to get through the toughest small to medium applications.

Lightweight Compact Design

The most compact and lightweight saw in the portfolio allows for ease of transportation, ease of use and optimal cutting in tight spaces.

Dual Water Source

Featuring a large integrated water tank and the ability to connect to an external water hose allows users multiple options to source water for cutting regardless of jobsite conditions.

| P/N | DESCRIPTION |
|-------------|---------------------------|
| M130-13G-EU | M130, 11.7HP, Petrol Push |

500mm Blade is NOT included
(500mm Guard included)

SPECIFICATIONS

| | |
|---------------------------------|---|
| Engine Type | Gasoline, Honda GX 390 |
| Power | 8.7 kW |
| Net Weight | 108 kg |
| Max Cutting Depth | 200 mm |
| Blade Size | 300 - 500 mm |
| Arbor Size | 25.4 mm |
| Depth Adjustment | Handle Rotation |
| Engine Speed | 3,900 RPM |
| Propulsion | Manual Push |
| Engine Pulley Size | 5.8 cm |
| Spindle Shaft Pulley | 7.8 cm |
| Shaft Output Speed | 2,900 RPM |
| Water Tank Capacity | 30 liters |
| Recommended Fuel (EU/UK) | Research Octane rating 91 or + Pump Octane rating 86 or higher |
